

Irina Movradin

My experience as a ESC Trainee

DURATION

January 2021

December 2021

LOCATION

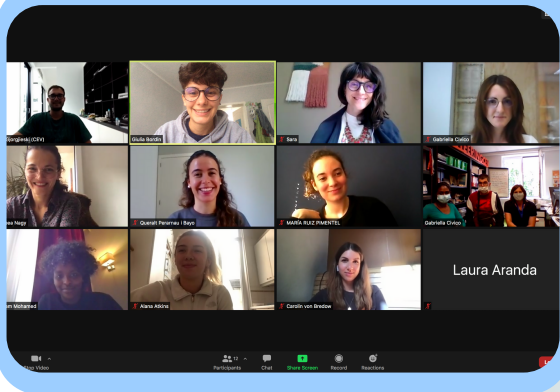

Brussels, Belgium

My name is Irina Movradin, I'm 28 years old and I joined the ESC program at the end of 2020.

During my year at CEV, I was a part of one of the biggest European network of over 60 organisations dedicated to the promotion of, and support to, volunteers and volunteering in Europe at European, national or regional level, I was a trainee of Centre for European Volunteering (CEV) located in Belgium, Brussels.

During my experience in CEV I learnt a lot of valuable things, but the most important in my opinion, is volunteering and solidarity, which is what the CEV is dedicated to.

Also, I've learned how to deal with different administrative procedures and a variety of organisation and communication operations. I was helping the CEV manager with finances and different financial operations, budgets, grants, etc.

CEV was for me like a big family where everyone is supporting and helping each other, I cannot choose just one best memory, I would say that every day was a new interesting and useful experience for me. I made new friends and met a lot of new people, exchanging experiences and views. The best feeling is, despite the actual COVID-19 crisis, moments when we managed to meet together with the whole team, respecting all the measures and rules. Nowadays we really need to appreciate these small but very important moments together. I'm grateful for this experience and happy that I was a part of the CEV team.
