Brief description of the project and what you did: We created (designed, prepared and dug) a mountain bike trail in the park of the village of Preslav.

Your favourite moment: When we were all the volunteers and the local kids together to dig the MTB path.

Impact in the community: To do a concrete project which makes sense, and which brings a smile on local kids' faces. Some of the locals came to help us to complete our mission.

Impact on yourself: Able to cross the language barrier and to know the other volunteers and the local population to create very strong links with them.
